The OSGeo Conference Committee

Dear Committee,

On behalf of Sirius Corporation, I am pleased to support the UK Organizing Committee's bid to host the Free and Open Source Software for Geospatial (FOSS4G) Conference in 2013 in Nottingham, UK

Sirius has been a constant supporter of the open source community since we were founded in 1998. It is essential for businesses such as ours. Many of our customers, including UK Government departments, are using open source geospatial technologies and we believe that UK businesses and organisations will benefit from the FOSS4G conference being held here.

We look forward to actively participating in the FOSS4G Conference and encouraging the open source geospatial community to join us in Nottingham for FOSS4G 2013.

Best wishes,

Mark Taylor

CEO
