FOSS4G 2010

Free and Open Source Software for Geospatial Conference
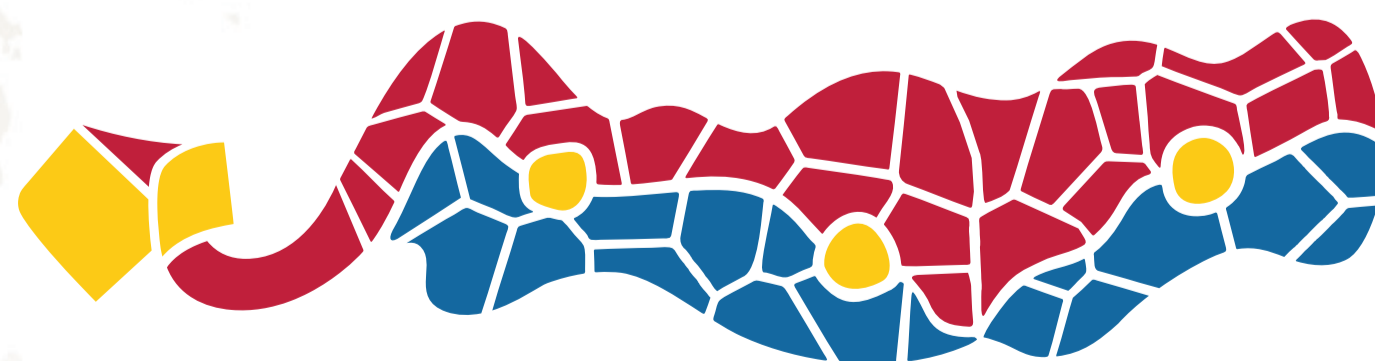

Barcelona
6-9 September, 2010

Organized by
OSGeo
Your Open Source Compass

FOSS4G is the annual conference for Open Source Geospatial Software organized by OSGeo.

It is heralded as the international ¨gathering of tribes¨ of open source geospatial communities, where developers and users show off their latest software and projects, and in 2010 will meet in **Barcelona, Spain.**
