14th May 2012

To
The OSGeo Conference Committee

Dear Committee,

On behalf of Sustain, I am pleased to support the UK Organizing Committee's bid to host the Free and Open Source Software for Geospatial (FOSS4G) Conference in 2013 in Nottingham, UK.

Sustain have been active users of open source GIS software for domestic energy management and carbon reduction since 2010, and we believe that holding this conference in the UK would help to support development and use of open source GIS, helping companies like us to maximise our return from our use of GIS software, and to continue to improve our services to our clients.

We look forward to actively participating in the FOSS4G Conference and encouraging the open source geospatial community to join us in Nottingham for FOSS4G 2013.

Best wishes,

Tobias Parker
CEO, Sustain Ltd
