PROJECT NO FOSS4G_2013

Subject: FOSS4G UK Bid 2013 - Letter of Support

Dear committee members,

On behalf of COWI, Geographic Information and IT, I am pleased to support the UK organising committee's bid to host the Free and Open Source Software for Geospatial (FOSS4G) Conference in 2013 in Nottingham, UK.

COWI is an established GIS and mapping company based in Denmark and with offices globally, including the UK. We use a range of geospatial software including open source platforms and tools. We see the enormous current value and potential of free and open source software for solving geospatial information problems and hence the use of open source software forms an integral part of our long term technology strategy.

From COWI we look forward to actively participating in the said conference and encouraging the open source geospatial community in both Denmark and abroad to join us in Nottingham for FOSS4G 2013.

Your sincerely

Steen Jappe
Vice President GIS & IT
