

For the attention of:

**The OSGeo Conference Committee**

Dear Committee,

On behalf of emapsite.com Limited, I am pleased to support the UK Organizing Committee's bid to host the Free and Open Source Software for Geospatial (FOSS4G) Conference in 2013 in Nottingham, UK.

As one of the growing band of organisations that deploy FOSS4G software in various flavours across our platform we think it is about time that OSGeo Conference came to UK to afford a chance for practitioners in the UK to engage more widely while offering non-UK practitioners some insights into how and why the FOSS4G stack is finding favour amongst UK enterprises and elsewhere.

On a personal basis emapsite's personnel have been attending previous FOSS4G events and, given that 2013 is Europe's 'turn' so to speak, we feel that it is about time the event came to our back yard!

We look forward to actively participating in the FOSS4G Conference and encouraging the open source geospatial community to join us in Nottingham for FOSS4G 2013.

Best wishes,

James Cutler, CEO
