To
The OSGeo Conference Committee

Dear Committee,

On behalf of JDi Solutions Ltd and Blue Fox Technology, I am pleased to support the UK Organizing Committee's bid to host the Free and Open Source Software for Geospatial (FOSS4G) Conference in 2013 in Nottingham, UK.

At JDi Solutions and Blue Fox we make extensive use of open source geospatial software as it enables us to provide cutting edge, cost effective solutions to UK local government. The FOSS4G conference is one of the most influential in the field and can undoubtedly bring like minded people together for the greater good. The UK chapter have hosted a number of excellent conferences and events in Nottingham already and we have no doubt that a FOSS4G event here would be a great success.

We look forward to actively participating in the FOSS4G Conference and encouraging the open source geospatial community to join us in Nottingham for FOSS4G 2013.

Best wishes,

A handwritten signature in black ink, appearing to be 'Tom Dean'. The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Tom Dean
Director
