Dear Committee

On behalf of Ordnance Survey, I am pleased to support the UK Organizing Committee's bid to host the Free and Open Source Software for Geospatial (FOSS4G) Conference in 2013 in Nottingham, UK.

Ordnance Survey is the national mapping agency of Great Britain. We extensively use, contribute to and promote open source geospatial software. We have actively attended and presented at previous Free and Open Source Software for Geospatial conferences and we are a proud supporting sponsor of OSGeo. The value of open source will continue to grow strongly in the UK and, as such, will provide the ideal location to host FOSS4G 2013.

We look forward to actively participating in the FOSS4G Conference and encouraging the open source geospatial community to join us in Nottingham for FOSS4G 2013.

Yours sincerely

**Peter ter Haar**
