The OSGeo Conference Committee

Dear Committee,

On behalf of Bluesky International Limited, I am pleased to support the UK Organizing Committee's bid to host the Free and Open Source Software for Geospatial (FOSS4G) Conference in 2013 in Nottingham, UK.

Bluesky is an established GIS and remote sensing company based in the UK. We use a range of geospatial software and more recently we have been looking at open source. This software already plays a key role in the GIS arena and this will inevitably grow. The UK is a world leader in geographic information and there are many stakeholders that would benefit from a conference in the UK, particularly in a central location such as Nottingham.

We look forward to actively participating in the FOSS4G Conference and encouraging the open source geospatial community to join us in Nottingham for FOSS4G 2013.

Best wishes,

A handwritten signature in blue ink, appearing to read "James Eddy". The signature is stylized with a large loop at the beginning and a long, sweeping tail.
