CANADA

Dear Mr McKenna,

On behalf of Cascadia Users of Geospatial Open Source (CUGOS), I am pleased to support the Denver Local Organizing Committee's (Denver LOC) bid to host the Free and Open Source Software for Geospatial (FOSS4G) Conference in 2010.

CUGOS is a regional user group supporting open source GIS and an OSGeo chapter in formation. With over 100 members, active meetings and growing community participation we are excited to support the Denver bid for FOSS4G 2010.

CUGOS looks forward to actively participating in the FOSS4G Conference and encouraging the open source geospatial community to join us in Denver for FOSS4G 2010.

Sincerely,

Aaron Racicot (CUGOS Co-Founder)
