CORPORATE LOGO PROTECTED ZONE

The Protected Zone, represented by the thin blue line, is relative to the height of the “G” letter form.

No separate image or logo should broach this area.

This measurement applies proportionately when decreasing or increasing the size of the logo.

LOGO PROPORTIONS IN PRINTED DOCUMENTS

When using the OSGeo Corporate Logo in conjunction with other logos on printed pieces, please keep the proportions of the OSGeo Corporate Logo in mind. Do not use the logo at its smallest size on large printed document (i.e. tradeshow panels) to satisfy the basic requirement. This de-emphasizes the importance of OSGeo.
